

## 100% Guarantee Ensures 100% Customer Satisfaction

Your **Kwicksilver** professional certifies that all work performed will meet your expectations. **Kwicksilver** technicians must undergo rigorous training before being certified.

## Body Shops Save Time & Increase Productivity

Body shop managers will eliminate last minute problems often caused by using out of town wheel replacement companies. Your **Kwicksilver** pro is local to your community, and in most cases can provide same day service. Cosmetic wheel repair and enhancement can be performed on-site at your place of business. For wheel straightening and more complicated repairs the wheel is taken to a **Kwicksilver** shop and delivered back to you, often within 24 hours. No more calling around to see who has the OE replacement you are looking for. **Kwicksilver** can also repair aftermarket and chrome rims that are not stocked by your current vendor.

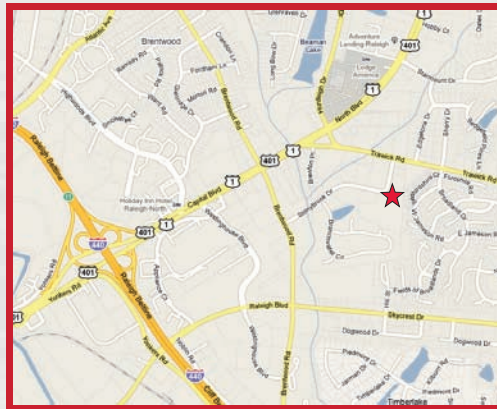

## Dealers Increase Your Profits

The appearance of a car's wheels can greatly influence a prospective buyer's overall interest in the car and his willingness to pay top dollar for a pre-owned vehicle. Curb rash, scrapes, gouges and discoloration can all decrease the value and appeal of a car. With our proprietary system of cleaners, color-coded paints, polishes, aluminum filler, and clearcoat, we guarantee expert results. We'll even walk the lot for you to identify those wheels that require repair and provide you with a free estimate for the work.

- Performance Mount & Balance

## Get Kwick!

The wheel pros at **Kwicksilver** proudly offer the following services:

### ◉ Powder Coating

Powder Coating rims produce excellent resistance to corrosion, heat, fading, and extreme weather. Color selection is virtually unlimited. Turnaround time is usually within 24 hours.

### ◉ Cosmetic Repair and Polishing

With our reconditioning tools, proprietary paints and clearcoat process we can remove curb rash, scrapes, gouges and discoloration caused by age. It's a specialized process that ensures a match with the undamaged wheels. Polished aluminum wheels can also be brought back to like-new condition.

### ◉ Re-machining Services

Some of our locations are set up with a state-of-the-art CNC wheel lathe. This device cuts the entire face of the rim, with exacting precision, producing a new finish that is equal to or better than original factory finishes. This service may require us to ship the rim to our nearest available outlet set up to perform this type of repair.

### ◉ Custom Wheel Painting

Whether you want Gunmetal, Black, Ghost Chrome, or just a different shade of Silver, **Kwicksilver** can custom paint all 4 wheels for a completely new look. We can also color chrome rims – yes chrome.

### ◉ Kwicksilver Tire Coating

Kwicksilver provides a high-gloss wet look and tire sealant for up to 6 months. It's a non-silicone based product that resists cracking and damage from UV rays, and repels water, dust and dirt. Kwicksilver is professionally applied by your **Kwicksilver** technician.

### ◉ PVD Chrome Coatings

**Kwicksilver** has a new chroming method based on physical vapor deposition (PVD). It is 100% environmentally friendly, using no hazardous materials and producing no hazardous waste. Better still, it has a 5 year warranty (typical chrome is 1 year), will not oxidize under winter conditions, and is 80% lighter than chrome. It will be offered in a traditional bright finish (ice) and a darker finish (black ice).

### ◉ O.E. Replacement Wheels

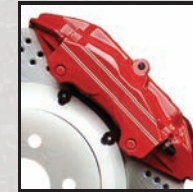

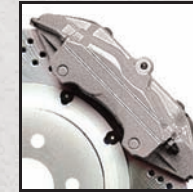

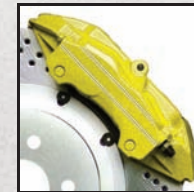

We provide new and remanufactured aluminum, steel, and chrome o.e. replacement wheels. We have access to thousands of wheels, both foreign and domestic ready to ship. O.E. wheels are 50-60% off the cost of a new wheel, delivered in 2-3 days, and come with a lifetime warranty.

### ◉ Performance Mount & Balance

Difficult tire and wheel combinations are no longer difficult. Our shops are equipped to handle today's larger rim sizes, low-profile tires, and run-flats.

### ◉ Caliper Painting

For a truly customized look our technicians can change the color of your brake calipers to any color you desire. We use only premier quality, high-temp glossy paints.

*Damaged wheel with severe curb rash and gouges*

*The finished wheel looks like new*
